

THE WORK AT CHAUTAUQUA.

REPORT OF THE COLLEGE OF LIBERAL ARTS.

ITS STUDENTS ARE FROM THIRTY-FOUR STATES
OF THE UNION—LECTURES AND OTHER
ENTERTAINMENTS AT THE LAKE.

BY TELEGRAPH TO THE TRIBUNE.

Chautauqua, N. Y., Aug. 14.—The College of Liberal Arts closes its session on Wednesday, Aug. 15. Its report, which has just been tabulated, is of exceptional interest. The most striking fact it contains is that nearly all of the students and teachers by occupation are from all sections of the country, thirty-four States being represented. Thirty-four also is the number of American colleges represented, some by students, but most by teachers. The students are distributed as follows: English, 62; Latin, 37; French, 38; German, 55; English, 51; History, 26; Greek, 23; mathematics, 15; physics and chemistry, 14; Hebrew, 12; political economy, 8; New-Testament Greek, 8. The leading States represented are as follows: Massachusetts, 10; New-York, 84; Pennsylvania, 57; Ohio, 32; New-Jersey, 11; Illinois, 11; Missouri, 10, and Texas, 6. Among the colleges represented are Yale, Wellesley, Vassar, Smith, Columbia, Cornell, Princeton, Trinity, Hamilton, and Lafayette. Many degrees are held by the students. Of the members of the college 11 are clergymen, 3 missionaries, 240 teachers, 12 music teachers, 4 professional men not teachers, and 8 business men. The report shows how diverse the work done by the college, how wide is its constituency, and how advanced and intelligent are the men and women who yearly attend it. Not a little of its efficiency is due to the executive ability and broad-mindedness of its principal, Dr. W. C. Harper. Its teachers, drawn from various colleges and universities in all sections of the country, are able specialists.

Dr. Helen G. Rice, National Superintendent of the Department of Juvenile Work in the Women's Christian Temperance Union, addressed the Women's Club this morning on "The Responsibility to the Child." Dr. Russell H. Lowell, author of "Institutional Churches." He spoke of the average church as not strong enough along educational and philanthropic lines. He suggested reading rooms, gymnasiums, hospitals, schools, and libraries, as well as things which most churches might develop advantageously. In answer to questions from the audience the Rev. Mr. Conwell spoke of his own church, the Temple Baptist Church, Boston, and the Anti-Saloon League. Dr. Russell H. Lowell, author of "Institutional Churches." AN EXCELLENT LADY writes for a "Family Talk on Business Education" and I have sent her the book that I have been most interestedly advertising in this column. It isn't exactly a "Family Talk," and yet, if it leads to a family talk, all will be well. Just as soon as father, mother, and the children "get together" on this subject, I am sure they will be well satisfied. The little book I am speaking of is a good one under the existing laws, and I imagine just how some of its points will strike the growing boy who wants to "get downtown" and get into business. If the boy is sensible I must assume he is, he will see how much better it will be for him to know something before he goes downtown, something that will enable him to hold his head up and put a proper value upon his services. If he can add a column of figures rapidly and correctly, can write a man's hand, and knows how to record transactions, and is, besides, a truthful, industrious and straightforward boy, somebody wants him. Such a boy need have nothing to do with Walker, Bodillett & Co. His place is with him & Paid.

get into education first, and the place next.

Send for "A Familiar Talk on Business Education."
